General Observation / Color-Simulated Sample / Basic Mortar Analysis Form

Please send this completed form with your sample to: LimeWorks.us, 3145 State Road, Telford, PA 18969 using the United States Postal Service.

Please check this box [] if you just want a free initial observation and a recommendation regarding the brick, stone, or mortar you're sending. We will call you at the phone number you provide.

Please check this box [] if you want a Color-Simulated Sample to be sent to you based on Natural Hydraulic Lime Materials. Cost is \$150 per sample for 2 lb of custom mortar. (Each additional Color-Simulated Sample has a reoccurring charge of \$150 per sample).

Please check this box [] if you want an Acid Digestion Basic Mortar Analysis and Report to work from in order to reproduce a historic mortar using your own local regional sands or to go along with the Color-Simulated Sample you may be also requesting. Cost is \$500 per sample. Color report emailed to the address you provide.

Include a check for appropriate fees or have credit card information ready when we call to discuss the application after receiving the sample from you. We accept Visa, MasterCard, Discover, and American Express.
