**Disclaimer:**

For best results, set your device to maximum brightness. Only rely on hard samples. Many factors affect how images appear on your screen and how they print on your specific printer. It is suggested that you send us a sample or purchase the stock **Ecologic™ Mortar kit** so that you may view each tile individually or hold the tiles up to a building to determine a match. If you **send us a sample** we will call you, free of charge, to make a suggestion if one of our stock **Ecologic™ Mortar** colors is similar to the sample you send.
